SUMMARY

I am a recent graduate with an International Diploma in Information Technology and Advance International Diploma in Networking and Computer Forensics from Jigawa State Institute of Information Technology, Kazaure and currently studying BSc Computer Science at Ahmadu Bello University, Zaria ([In View](#)).

I am an enthusiastic and dedicated professional eager to contribute my skills as an Adhoc Staff, Café Attendant, or IT Staff at FrontalMinds Solutions Limited. With a passion for delivering exceptional service and a strong background in technology, I am excited about the opportunity to join your dynamic team. I am committed to fostering a positive environment and driving success through collaboration and innovation. Let's achieve great things together!

EXPERIENCE

TECHNICAL SUPPORT SPECIALIST

Jan 2023 – Current

Community Health Practitioners Registration Board of Nigeria, Abuja

- **Technical Troubleshooting:** Provided rapid-response technical support to staff and stakeholders, resolving hardware, software, and network connectivity issues to minimize operational downtime.
- **Network Administration:** Monitored and configured local network systems to ensure secure and efficient communication across departments.
- **User Training:** Conducted technical orientations and provided ongoing guidance to board employees on how to effectively utilize specialized registration software and internal portals.

CEO

Aug 2026 – Current

FrontalMinds Solutions Limited, Nigeria

FrontalMinds Solutions is a digital solutions agency based in Kano State, Nigeria, that specializes in building scalable websites and mobile applications. We focus on delivering high-performance digital products, including cross-platform apps, intuitive UI/UX designs, and secure cloud-based systems. The team is dedicated to solving complex problems through technology, ranging from school management and logistics platforms to secure digital recording systems for law enforcement.

IT STAFF

Dec 2025 – Current

Deenway Islamic School

- **Curriculum Development & Instruction:** Designed and delivered a comprehensive Computer Studies curriculum for students, focusing on digital literacy, core computing concepts, and ethical technology use.
- **Technical Skill Building:** Mentored students in foundational programming logic, software applications, and internet safety within an Islamic educational framework.
