## Summary

---

I am a recent graduate with an International Diploma in Information Technology and Advance International Diploma in Networking and Computer Forensics from Jigawa State Institute of Information Technology, Kazaure. I am an enthusiastic and dedicated professional eager to contribute my skills as an Adhoc Staff, Café Attendant, or IT Staff at FrontalMinds Solutions Limited. With a passion for delivering exceptional service and a strong background in technology, I am excited about the opportunity to join your dynamic team. I am committed to fostering a positive environment and driving success through collaboration and innovation. Let's achieve great things together!

## Experience

---

### **CEO, FrontalMinds Solutions Limited**

08/2026 – Current  
Nigeria

FrontalMinds Solutions is a digital solutions agency based in Kano State, Nigeria, that specializes in building scalable websites and mobile applications. We focus on delivering high-performance digital products, including cross-platform apps, intuitive UI/UX designs, and secure cloud-based systems. The team is dedicated to solving complex problems through technology, ranging from school management and logistics platforms to secure digital recording systems for law enforcement.

### **IT Staff, Deenway Islamic School**

12/2025 – Current

- **Curriculum Development & Instruction:** Designed and delivered a comprehensive Computer Studies curriculum for students, focusing on digital literacy, core computing concepts, and ethical technology use.
- **Technical Skill Building:** Mentored students in foundational programming logic, software applications, and internet safety within an Islamic educational framework.

### **Technical Support Specialist,**

01/2023 – Current  
Abuja

*Community Health Practitioners Registration Board of Nigeria*

- **Technical Troubleshooting:** Provided rapid-response technical support to staff and stakeholders, resolving hardware, software, and network connectivity issues to minimize operational downtime.
- **Network Administration:** Monitored and configured local network systems to ensure secure and efficient communication across departments.
- **User Training:** Conducted technical orientations and provided ongoing guidance to board employees on how to effectively utilize specialized registration software and internal portals.
